

TECHNOLOGY SOLUTIONS FOR COMPUTER ACCESS, SEATING AND COMMUNICATION (TASC)

TASC is a customised service designed to meet the technology, seating and mobility needs of people with disabilities in NSW.

TASC Philosophy

To provide quality services to people with disabilities in the areas of technology, seating and mobility.

The Service

TASC services include the following:

- Identification of client needs and recommendations in relation to technology for communication, computer access, seating and environmental control
- Alternatives to handwriting
- Assistance with the trial of recommended equipment
- Assistance with preparing funding submissions for recommended equipment
- A fully equipped workshop to modify or repair wheelchairs and manufacture customised equipment for people with disabilities
- A mobile service that regularly visits sites within the Sydney metropolitan area
- Information and advice to clients, carers, and professionals
- Training and in-servicing about technology for people with disabilities.

The Team

TASC employs highly skilled professionals from various backgrounds including:

- Speech Pathology
- Occupational Therapy
- Physiotherapy
- Engineering
- Upholstery
- Technical areas e.g. metal and mechanical trade.

... /

Location of Service

TASC is based at Allambie Heights with regular services offered at Spastic Centre outlets across Sydney and Newcastle metropolitan areas. Visits to other areas or venues are available upon request.

Cost of TASC Services

There is a scale of charges for various services offered by TASC. Any person with a disability is eligible to receive services.
